

Your **Timesaver / OrderMaster** food ordering system,
with its HSDU(Higher Still Devt. Unit)-specified **NutriGraph** nutrition analysis,
is now **on-line : user-friendly and easy-to-access**

NutriGraphTM

**www.
nutrigraph.
co.uk**

Your one-stop package for all ordering and analysing in Food & Nutrition courses in secondary schools – the 2015 web version 10 takes it to a new level of convenience.

The benefits of version 10:

- ✓ Easy access to your data – from any internet-linked device – anywhere – any time.
- ✓ Compatible with tablet computers and mobile phones.
- ✓ Data can be accessed by pupils at home for projects.
- ✓ No extra cost when we add extra features.

Also:

- ✓ 30-day trial period if requested (subject to provisional commitment)
- ✓ Each school has its own data – but can access a ‘larder’ of extra ingredients.
- ✓ Recipes can be ‘banked’ for use another year without clogging your current list.
- ✓ Cost: under £1 per school week (£35 p.a., invoiced annually from first web use) - savings in ordering ingredients may well cover the annual cost.
- ✓ The bulk order option can calculate, and cost, practical cookery for a whole term, or a year, or for each course, enabling the bulk ordering of non-perishables.
- ✓ No price increase for five years guaranteed for those purchasing in 2015/2016.
- ✓ Continuation of the prompt support provided by phone or email.

If you already use

OrderMaster/NutriGraph:

- Visit NutriGraph on the web.
- Contact us to discuss the best time (eg holiday period) to move to the online version.
- Send us your current data file, allow us a week to convert it, and your data will be ready on the web.

If you are not yet using NutriGraph:

- Visit NutriGraph on the web.
- Contact us to have any questions answered. We can then set you up with school-specific files. Ask for an approval period if you wish.
- Start! (whatever data you add in the trial period will be saved, so no need to re-enter any data afterwards!)

Vindogara Software, 29 Milgarholm Avenue, Irvine, KA12 0EL
